

GEDx Programme

GEDx

What is GEDx?

GEDx is a unique educational outcome improvement programme developed by the ABQ Education Group for students who choose the General Education Diploma (GED) pathway in Oman.

“GEDx is live in all ABQ International Schools and, with actual experience and feedback, we are constantly evolving and enhancing the programme”.

Hanane Feggadi , GEDx Programme Coordinator

Why GEDx?

At ABQ, we realise that the competition for university scholarships is increasing every year. In addition, a significant number of our students now opt for the GED pathway. So simply put, GEDx aims to enhance academic outcomes to ensure that our students receive the best scholarships available in the country.

Why GEDx?

Another important reason for GEDx is to link students' academic and career pathways. Here, we have linked GEDx to our unique Discovering You Programme (DYP). With dedicated mentors for each student through DYP, students and parents participate in a highly personalised academic goal setting and career guidance exercise.

Another catalyst in developing GEDx is to take advantage of ABQ Education Group's deep knowledge of the GED system. We have graduated over 18 GED cohorts and, therefore, our educators have extensive domain knowledge and experience of dealing with the GED system.

We, therefore, decided to capture all our cumulative knowledge and rich experience within the ABQ Group and channeled it to create the unique GEDx programme.

GEDx Programme Highlights

Enhanced Curriculum Mapping

- Build a stronger foundation by Grade 11
- Accelerate syllabus completion

Proprietary Examination and Testing database

- Create a proprietary bank of GED-style practice questions
- Deep analysis of mock examinations to target specific areas for intervention

Rigorous data collection and progress tracking

- 5-point data capture system
- Individualised and subject/topic wise tracking system

Target overall average of 85% in GED Final examinations

- Customised targets by student and subject
- Individualised preparation plans for students

Leverage ABQ Staff knowledge of GED Assessment and Marking

- Train staff on strong knowledge base of GED expertise
- Unique examination preparation programme for students

Benefits of GEDx

MOE and MOHE

Improved GED outcomes. Support the national vision and ministry goals.

Parents

More knowledge about GED and their role in helping their children achieve their goals.

Students

Achieve their goals. Obtain good scholarships. Shape their abilities and skills.

Teachers

Improve their performance. Benefit from different colleagues' expertise. Challenge themselves and stretch their abilities.

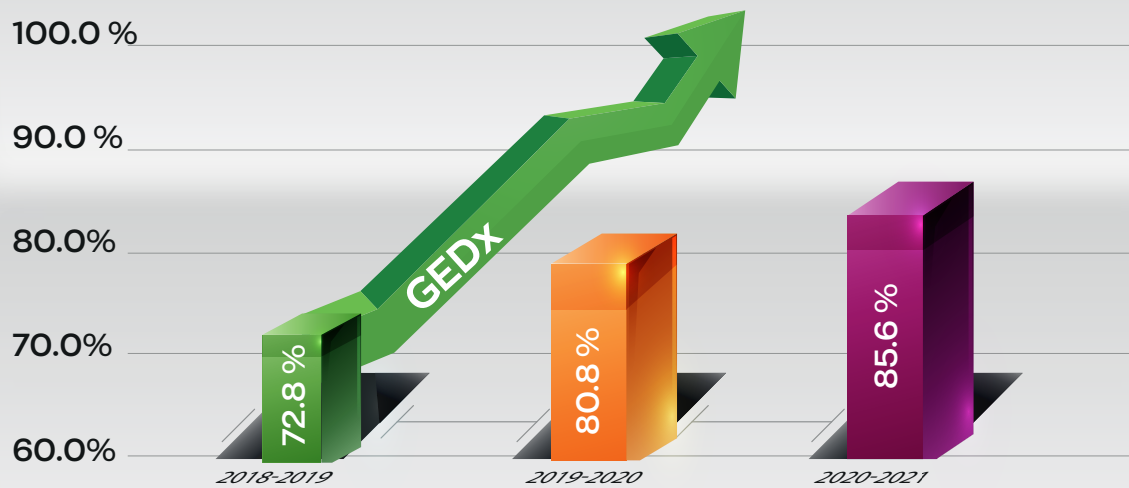

GEDx team

Gain more experience. Share knowledge and learn from each other. Continually challenged to reach new goals. Good opportunity for professional growth.

GEDx Impact Since Inception

Improvement of year-on-year results
