

# Critical Thinking

Grade 11

Mentee: .....

Grade: ..... Date: .....

**CRITICAL THINKING ACIVITY:**

It is 2040 and robots with super-smart AI are everywhere in society. The government is discussing whether these robots should have the same rights and citizenship as humans. You are part of a committee that needs to suggest a decision. You have to think about the moral, social and economic effects of this choice. Take a stand and give good reasons to support your opinion. Write at least 200 words.
