Construction

All Twin campervans are perfectly integrated onto the **base vehicle** for optimum driving characteristics and living space design. Adria manufacturing processes ensures the optimum construction and integrity of the final product.

New materials. EPP expanded polypropylene is a highly durable, reusable, 100 % recyclable composite material, with mechanical strength, high-resilience, good energy absorption and high thermal and sound insulation properties. It contributes to reducing weight and road-noise and vibrations when driving.

Durable, 1500 mm **slide-out floor** feature, with 150 kg payload, adds versatility. Extension can be locked when not in use. Option available on **SGX layout**.

Made in Slovenia

Adria Mobil are committed to **sustainable development, preventing and reducing environmental impacts**, our environmental management system is certified to ISO14001.

Made in Slovenia, our vehicles reflect the character of a country where green is more than a colour. It represents a balance between beautiful nature, caring people and responsible development. This spirit inspires the way we design and manufacture vehicles for memorable journeys, with **respect for quality, durability and the world around us**.

Our vehicles are manufactured at our **state-of-the-art** ISO 9001 EFQM 5 Star certified manufacturing facilities in Slovenia, using world-class manufacturing techniques for durability, reliability and premium quality.

Vehicles are supplied with a **class-leading warranty**, a comprehensive parts supply and aftersales service from our extensive Adria dealer network.
