ALBINS

FÖRETAGSKONFERENS

2024

We are thrilled to announce AFK – Albins Företagskonferens, a recruitment fair organized by Datateknologerna vid Åbo Akademi rf. The event is set to unfold on 9.2.2024. It marks a significant milestone for us as we proudly host our first ever career fair, coinciding with the celebration of 25 years of operating as a student organization.

AFK aims to bring its participants the exclusive opportunity to engage directly with corporate representatives, explore potential job opportunities - including trainee programs and summer positions - and gain insights from inspiring presentations by industry partners.

In addition to the corporate side of things, AFK also emphasizes your professional growth through expert CV feedback, tailored to meet the evolving demands of the job market. Our skilled photographers will also be on-site to capture your professional image, elevating your LinkedIn profile for increased appeal to potential employers and future connections.

We extend our sincere appreciation to the companies with whom collaborating has made AFK – Albins Företagskonferens possible.

## A workplace that looks like its **creators**.

Identio is a tech company specialised in consulting. We work on projects that combine modern technology, problem-solving, creativity, and multi-vendor environments that require a large variety of different skills. **Trust and transparency** are integral to our work, and these values show in our work with clients as well as in our internal culture.

The cornerstones of our culture are:

- **Developing one's competence during working hours**
- **Possibility to affect the company's development**
- **High-quality leisure time**
- **Possibility for ownership**

Get to know us at [identio.fi/en](https://identio.fi/en)

**identio.**

**Crosskey** is a dynamic company at the forefront of banking and IT innovation, where our leading-edge skills shine. Our core focus includes developing, delivering, and managing products and services within the banking, e-banking, and capital market sectors, along with card and mobile payment services. With a dedicated team of over 300 professionals, our offices span Mariehamn, Stockholm, Helsinki, and Turku, serving predominantly Nordic clients like Ålandsbanken, Marginalen Bank, S-Bank, and POP Bank. Dive deeper into our story at [www.crosskey.fi](https://www.crosskey.fi).

If you find yourself approaching the end of your studies or have recently graduated, embodying traits like analytical thinking, patience, and a solution-oriented mindset, then you're exactly who we're looking for!

This is more than a trainee opportunity; it's an invitation to an exciting journey of personal and professional growth in the dynamic intersection of finance and IT. At present, we are actively seeking trainees for roles such as Java, RPG, or C# developers, as well as front-end developers (Angular/Vaadin) and System Administrators. As a Crosskey trainee, you'll immerse yourself in a spectrum of tasks, gaining invaluable work experience along the way.

Elevate your potential with us!

## Hello readers!

My name is Emilia Håkans and I'm currently the sitting Chairman of our association for the operating year 2024. The interest of organizing a recruitment fair specifically for IT-students has over the years been more and more desirable. Alongside our new Alumni Advisor, Niclas Jern, and our associations brand new project group the discussion to realize the idea quickly began.

In the beginning, the plan was to organize the fair in 2025, but during our first meeting we decided to give it a try coinciding with the celebration of 25 years of operating as a student association. The project group immediately started working and already after a few weeks made huge progress. Just before Christmas I received confirmation from the project group that AFK was going to become a reality which made me proud and excited.

Huge thanks to DaTes project group for their hard work and for making Albins Företagskonferens a reality.

## Hello there!

This friday, Aurum is going to host the first ever AFK fair. If you are reading this, it means you are one of the people we very much hope to see there! Our goal is that the day will be a great experience for you, that you will have the opportunity for good discussions with the company representatives attending, get to listen to some interesting presentations and, if you were one of the ones lucky enough to snag a spot at the dinner, that you have a great night.

There are many exciting firsts this year: Our very first career fair, the first time I write something in my official capacity as DaTe's new Alumni Advisor and, hopefully, one of you will be the first person to be able to tell the story about how you got your first job through a contact you made at AFK.

This year marks 25 years since a bunch of Computer Engineering students sat down and decided that we need to have our own association where we can build our own little community, with our own traditions and events specifically tailored for our members. Today, the community is not so little anymore - the association continues growing and, over the last year, our alumni activity has taken a huge leap forward as well.

Like a well-maintained software package, DaTe keeps adding new great features (like AFK!) every year. I look forward to following that development up close (and perhaps providing some comments on the pull requests) over the coming years as your advisor.

If you see me around at AFK, feel free to stop me and say hello. Again, I hope you have a great day!

- Niclas Jern, DaTe Alumni Advisor

# VIKTIG INFORMATION INOM RÄCKHÅLL

På Navielektro blickar vi ständigt framåt och utmanar gränserna för vad som är tekniskt möjligt. Vårt mål är att trygga vardagen genom högeffektiva övervaknings-system. Hos oss får du vara delaktig i en verksamhet som utvecklar, levererar och underhåller stabila och avancerade realtidssystem anpassade för myndighets- och försvarsbruk.

**ANDAS DU KOD? BRINNER DU FÖR JAVA? VI VILL HA DIG!**

*Vi söker skickliga kodare och IT-expert till vårt växande företag.*

Presentations about  
job seeking

Founded in 2011 with the idea to commercialise our ÅA project course ideas around providing a better and smarter indoor experience, Walkbase has gone from lab project to a startup, from a startup to a scale-up and from a scale-up to now being a part of the STRATACACHE family of companies (since 2017).

Today we are a team of about 20 people in various engineering and data science oriented roles working out of a penthouse office in Datacity. We get to work with interesting stuff like hardware R&D, design, developing software from embedded systems up to scalable cloud services, and helping our customers understand the data our solutions generate from their locations.

As part of the STRATACACHE family of digital media/marketing technology companies, our mission is to provide our customers with the best tools to understand their indoor spaces and, with some, how other STRATACACHE products are helping them get their work done better and faster.

**If this sounds interesting to you,  
swing by the booth and learn more!**

**Wärtsilä** is an innovative technology company known for being a forerunner and a leader in decarbonisation in Marine and Energy business.

Every day, we – Wärtsilians – put our hearts and minds into turning Wärtsilä's purpose of enabling sustainable societies. We work together in 79 countries with almost 18 000 experts from 127 different nationalities. We take pride in diversity, continuous improvement, and innovation in sustainability.

Interested in versatile and challenging opportunities in different fields of IT, business or tech? We are looking for you! Wärtsilä is hiring over 600 trainees to work with us this summer in Vaasa, Turku or Helsinki with hybrid work opportunities.

Follow our Wärtsilä Voice Instagram for more information about the summer trainee, graduate program and thesis opportunities in Finland.

# FEM TIPS INFÖR SOMMARJOBDET

Som TFIF-TEK-medlem får du de bästa tipsen för att söka sommarjobb! Vi hjälper dig också om du stöter på problem i jobbet.

Medlemskapet i TFIF och TEK är gratis under studietiden och du blir enkelt medlem på [tfif.fi](http://tfif.fi)!

## REDAN MEDLEM?

Bra jobbat, då är det bara att köra igång med jobsökningen!

## ANVÄND DIG AV DINA NÄTVERK

1

Det är långt ifrån alla jobb som utannonseras öppet på nätet. Därför lönar det sig att själv vara aktiv och ta kontakt med personer som jobbar på någon arbetsplats som du är intresserad av. TFIF har 5000 medlemmar - ett utmärkt ställe att få kontakt med svenskspråkiga diplomingenjörer, naturvetare och arkitekter i Finland och utomlands! Kom med på ett evenemang eller kolla i [katalogen](#) i TFIFs medlemsportal ifall du hittar någon intressant person som kan hjälpa dig att få foten in till din drömarbetsplats!

## CV, ARBETSANSÖKAN OCH LINKEDIN I SKICK

2

En bra ansökan och en uppdaterad CV och LinkedIn-profil ger ett gott intryck till potentiella arbetsgivare. Modellbotten, tips och råd hittar du i TEK Työkirja på [tek.fi/tyokirja](http://tek.fi/tyokirja).

## LÖN OCH LÖNEANSPRÅK PÅ RÄTT NIVÅ

3

Ska du lämna in ett löneanspråk i samband med ansökan? Eller vill du kolla att lönen som erbjuds är på en konkurrenskraftig nivå? TEK ger årligen ut lönerrekommendationer för studerande och nyutexaminerade, som baserar sig på omfattande undersökningar inom tekniska branschen. Du hittar lönerrekommendationerna på [tek.fi/palkka](http://tek.fi/palkka).

## KOLLA ATT ARBETSAVTALET ÄR I SIN ORDNING

4

Det lönar sig alltid att göra arbetsavtal skriftligt och att noggrant läsa igenom avtalet innan du undertecknar det. Om du vill vara på säkra sidan kan du be TEKs jurister kolla igenom avtalet innan du skriver under.

## GÅ MED I KOKO-KASSAN REDAN UNDER STUDIETIDEN

5

KOKO-kassan är en arbetslöshetskassa som kan ge dig inkomstrelaterad arbetslöshetsersättning ifall du inte får jobb direkt efter studierna. Det lönar sig att gå med redan innan du blir färdig, eftersom du har rätt till inkomstrelaterad dagpenning först när du jobbat minst 26 veckor (ca 2 somrar) under de senaste sju åren och samtidigt varit medlem i arbetslöshetskassan utan avbrott.

Du behöver ha ett arbetskontrakt som är i kraft för kunna gå med i KOKO. Kontakta därför TFIF direkt den första dagen på ditt sommarjobb, så kan du bli medlem i KOKO och börja samla in de arbetsveckor som krävs för att dra nytta av inkomstförsäkringen. KOKO kostar 5,25 €/månad och är avdragbar i beskattningen. Läs mera om hur KOKO-kassan fungerar på [tfif.fi/koko](http://tfif.fi/koko)

TEKNISKA  
FÖRENINGEN  
I FINLAND

Owned by our customers, we are one of the most alluring employers in the financial sector. Our core mission is to promote sustainable economic success, security, and well-being for our owner-customers and our operating environment.

# Career Services CV clinic

Welcome to Career Services CV clinic at Albins  
Företagskonferens AFK, Fri 9 Feb, at 11:00-13:00!

At the CV clinic, you'll receive personal feedback on your CV, cover letter, or LinkedIn profile. We'll have the opportunity to go through one of these.

No appointment is needed for the CV clinic, but please be prepared to wait briefly for your turn. Bring a printed version of your CV or cover letter, or have it ready on your laptop screen.

## TEK's presentations about job seeking + headshot photographing

Are you looking to get the latest updates about job seeking? Would you like to receive some valuable tips on how to succeed in the job market? Does your LinkedIn profile need a new professional headshot?

During the day, you'll have three opportunities to listen to TEK's presentation on job seeking (EN/SV/FI). The role of a polished appearance in job seeking should not be underestimated. At AFK, we have a photographer who will help you add the finishing touch to your job application profile with a new, professional portrait.
