

Bradford Engineering B.V., a Bradford Space subsidiary, is a Netherlands based supplier of Altitude and Orbit Control Systems (AOCS), Propulsion, Avionics and Thermal solutions for spacecraft. Our expertise in the field of satellite propulsion covers the entire range from cold gas, gas feed systems for electrical thrusters, to chemical propulsion. To support the design and development of our products, we are seeking a:

Production Technician Mechanical

For all product lines at:

BRADFORD ENGINEERING

We are looking for a Production Technician Mechanical to reinforce our team at Bradford Engineering B.V.

Your role

The Production Technician is responsible for assembling, integrating and could be supporting in carrying out tests under supervision of the Engineering department. The Production Technician is able to assemble independent components according to validated procedures and the use of correct tools and materials for the Space application.

Key responsibilities

The main tasks are, but not limited to:

- Prepare work.
 - Reading of drawings and/or Schematics.
 - Kit verification (Kit check) at start of the assembly activities.
- Prepare parts for assembly (for example cleaning and packaging)
- Assembly of components.
- Fit check, assemble and integrate acc Drawings and Procedures
- Collaboration with the Production lead for day and weekly planning.

Essential skills

- Minimum two years relevant experience.
- MBO certificate (post-secondary vocational education) or by equivalent experience.
- Should have a good command of Dutch, both spoken and written (Dutch B1).
- Should have a sufficient command of English, both spoken and written (Technical English B1).
- Reading of technical drawings.
- Skilled in Microsoft Office (Word, Excel, Outlook).

Strongly valued/desired skills

Bradford Engineering B.V.

Dutch Chamber of Commerce no.: 20046521

- Experience in the fine mechanical industry.
- Hands on mentality.
- Driving license and willingness to occasionally travel.
- Familiarity with assembly processes.

What we can offer in return

We offer a varied job in an exciting industry where you play a big part, in the provision of innovative solutions for satellites in a global market, with market based salary (based on education and experience), a generous number of holiday days and a very international working environment.

Duty station

Heerle, the Netherlands, with occasional travel needed (Heerle is located few minutes from Roosendaal and Bergen op Zoom, 30 minute drive from Breda and Dordrecht, and 50 km from Rotterdam and Antwerp). Possibility to live in Belgium while working at Bradford.

The role is open to candidates of any age, gender and orientation with an EU nationality.
