

### Reading

Please read a minimum of three times each week. Please ask your adult to sign your reading record!

### Learn Its

#### **FRACTIONS**

Your task is to design a fraction poster. You must Include the following things:

1. Explaining how to add and subtract fractions
2. Examples of how you find a common denominator
3. Give examples of equivalent fractions and how to find them
4. Converting improper fractions into mixed
5. Numbers
6. Diagrams to support your examples

Remember to use what you know to help you

**Make your poster bright and colourful**

**Clear and easy to read**

**It may be chosen to go on the MATHS working wall**

### Spellings

Learn your spellings ready for next week. This week we are focusing on words from the year 5 and 6 word list.

If you are finding them tricky use different strategies to help you  
E.g. rainbow writing, pyramid writing, look cover check, mnemonics, bubble writing and silly sentences.

Anyway is fine as long as you learn these words!
