26th March 2009

Dear Parents/Carers,

The Foundation Stage Team feels that it is very important for young children to have first hand experience of caring for living things and taking responsibility for their welfare. Therefore, we would like to introduce living creatures into our outdoor learning environment.

We need to purchase the hutch, animals and all the accessories required to ensure that they are well looked after. To fund this we are having a sponsored event next week. To finish our topic, 'Water', we thought it would be fun for staff and children to have a pirate themed day, in which children would have a number of challenges to complete over the course of the day.

We hope that you are as excited about the projects as we are and feel able to support us by sponsoring your child. Please find attached details of the Pirate Day and a sponsor form.

Thank you in advance for your support.

The Foundation Stage Team
