2 ROYAL TRAVERTINO

nuovi scenari dall'anima autentica

New settings with an authentic soul
Nouveaux scénarios de l'âme authentique
Neue Szenarien mit einer authentischen Seele

Colori, texture e venature ci riportano al paesaggio italiano e ai colori caldi delle terre di Tivoli dove natura e architettura classica si uniscono per trasmettere sensazioni primordiali e un'estetica ricca di storia. Royal Travertino è l'interpretazione contemporanea di una pietra millenaria, visibile in un gres porcellanato di ultima generazione, pensato per rivestire architetture di straordinaria bellezza e di profonda matericità.

Colours, textures, and veining evoke the Italian landscape and the warm tones of Tivoli, where nature and classical architecture come together, stirring up primordial feelings and creating an aesthetic steeped in history. Royal Travertino is the contemporary vision of a millenary stone, available in the latest generation porcelain stoneware, designed to lend architecture extraordinary beauty and textural intensity.

Les couleurs, les textures et les veines nous ramènent au paysage italien et aux couleurs chaudes des terres de Tivoli où la nature et l'architecture classique s'unissent pour transmettre des sensations primordiales et une esthétique riche en histoire. Royal Travertino est l'interprétation contemporaine d'une pierre millénaire, visible dans un grès cérame de dernière génération, conçu pour revêtir des architectures d'une beauté extraordinaire et d'une matérité profonde.

Farben, Texturen und Aderungen bringen uns zurück in die italienische Landschaft und in die warmen Farben der Gebiete von Tivoli, wo sich Natur und klassische Architektur verbinden, um ursprüngliche Empfindungen und eine an Geschichte reiche Ästhetik zu vermitteln. Royal Travertino ist die moderne Interpretation eines tausendjährigen Steins, die in einem Feinsteinzeug der neuesten Generation sichtbar ist, das entworfen wurde, um Architekturen von außergewöhnlicher Schönheit und tiefer Materialität zu kleiden.

3 ROYAL TRAVERTINO

La collezione Royal Travertino è composta da una struttura omogenea, con piccoli pori che ne aumentano la tridimensionalità, declinata in quattro tonalità su due tipologie di superficie. I fondi Vein, caratterizzati da ampie venature, sono pensati per dare slancio ai rivestimenti, anche grazie al grande formato 120x278 cm di spessore 6 mm e 60x120 cm di spessore 8,5 mm, mentre i fondi Cross, dalla texture più compatta, completano l'offerta a pavimento nel formato 120x120 cm, 60x120 cm e 80x80 cm per un effetto "total look". Le strutture Wavy e Comb, sono decorazioni aggiuntive in 60x120 cm solcate da geometrie che rivestono le pareti degli ambienti con un raffinato pattern dall'effetto tridimensionale.

una duplice visione per rivestimenti di grande fascino

Dual inspiration for high-impact wall tiles
Une double vision pour des revêtements de grand charme
Eine doppelte Vision für Wandbeläge mit großem Charme

Available in four shades on two surface types, the Royal Travertino collection tiles feature a homogenous body and tiny pores that enhance their texture. The extensive veining of the Vein background tiles combined with their size (120x278 cm, 60x120 cm) and thickness (6 mm, 8,5 mm) are designed to give these wall tiles elan, while the more compact texture of the Cross background tiles for floors (available in the 120x120 cm, 60x120 cm and 80x80 cm sizes) complete the offering for a total look effect. The Wavy and Comb textures rare an additional accent tile, available in the 60x120 cm option, whose sinuous furrows lend walls a stylish three-dimensional touch.

La collection Royal Travertino est composée d'une structure homogène, avec de petits pores qui en augmentent la tridimensionalité, déclinée en quatre teintes sur deux types de surface. Les fonds Vein, caractérisés par de larges veines, sont conçus pour donner de l'élan aux revêtements, également grâce au grand format 120x278 cm d'épaisseur 6 mm et 60x120 cm d'épaisseur 8,5 mm, tandis que les fonds Cross, à la texture plus compacte, complètent l'offre des carrelages de sol au format 120x120 cm, 60x120 cm et 80x80 cm pour un effet « total look ». Les structures Wavy et Comb sont des décorations supplémentaires en 60x120 cm sillonnée de géométries ondulées qui habillent les murs des pièces avec un motif raffiné à l'effet tridimensionnel.

Die Kollektion Royal Travertino besteht aus einer homogenen Struktur mit kleinen Poren, die ihre Dreidimensionalität erhöhen, und ist in vier Farbtönen auf zwei Arten von Oberflächen erhältlich. Die durch große Aderungen gekennzeichneten Scherben Vein sollen den Wandbelägen auch durch das große Format von 120 x 278 cm mit einer Stärke von 6 mm und 60 x 120 cm mit einer Stärke von 8,5 mm Impulse verleihen, während die Scherben Cross mit einer kompakteren Textur das Angebot der Bodenbeläge im Format von 120 x 120 cm, 60x120 cm und 80x80 cm für einen Effekt des „Total Look“ vervollständigen. Die Wavy- und Comb-Strukturen sind zusätzliches Dekor im Format von 60x120 cm, das von wellenförmigen Geometrien durchzogen ist, die die Wände der Zimmer mit einem raffinierten Muster mit dreidimensionaler Wirkung kleiden.

> **Grande naturalezza e durevolezza**
Strikingly natural and hard | Grandes naturalité et longévité | Natürlichkeit und Langlebigkeit

La matericità e tridimensionalità del gres porcellanato Royal Travertino, resa possibile dall'innovativa tecnologia 3D Texture, si evolve per offrire la finitura **3D Texture Honed** applicata ai fondi Vein, delicata al tatto che esalta la mutevolezza delle venature. La finitura **3D Texture Satin** invece caratterizza i fondi Cross, donando un'originale patinatura opaca che muta al variare della luce e che dona una particolare morbidezza, priva di asperità, ideale anche per la posa a pavimento. Entrambe frutto della continua ricerca di Fondovalle, prevedono una perfetta sincronia tra differenti applicazioni di materie, grafiche e strutture, che arricchisce l'impasto pressato con una profondità di dettaglio straordinaria.

nasce una finitura perfettamente opaca, dal tocco vellutato

Introducing the perfectly matt finish with a velvety touch
Une finition parfaitement opaque, avec une touche veloutée
Es entsteht ein perfekt deckendes Finish mit samtiger Haptik

> Superficie ultra matt, senza riflessioni

Ultra matt surfaces with no reflections | Surface ultra mat, sans reflets | Ultramatte Oberfläche, ohne Reflexionen

> Estetica tridimensionale

> Morbidezza e facilità di pulizia

Soft and easy to clean | Douceur et facilité de nettoyage | Geschmeidige Haptik und leichte Reinigung

> Grande naturalezza

Extremely natural-looking | Grand naturel | Große Natürlichkeit

> Massima durevolezza

Maximum durability | Durée de vie extrême | Maximale Dauerhaftigkeit

La tecnologia Real Matt regala al gres porcellanato una finitura estremamente matt e molto più opaca rispetto alla finitura Naturale, garantendo massima morbidezza al tatto, facilità di pulizia. Frutto di talento, ricerca e di una costante e appassionata sperimentazione sulla materia ceramica, questa tecnologia consente infatti di annullare completamente gli effetti di riflessione delle superfici. Sovrapposizioni di materie selezionatissime, con bassissimi livelli di gloss, si amalgano nel supporto ceramico rendendo perfettamente reale l'interpretazione di materiali naturali con i loro molteplici effetti di stonalizzazione.

Real Matt technology lends porcelain stoneware a highly matt finish (much more so than the unworked finish), guaranteeing maximum softness to the touch and ease of cleaning. The result of talent, research, and constant passionate experimentation with ceramics, this technology removes absolutely all reflections from the tiles. Featuring layer upon layer of only the most select materials and very low levels of gloss, the body of these tiles renders the appearance of their natural counterparts and their multiple shading effects with an absolute realism.

La technologie Real Matt donne au grès cérame une finition extrêmement mate et beaucoup plus opaque que la finition Naturel, garantissant une douceur extrême au toucher et facilitant le nettoyage. Fruit du talent, de la recherche et d'une expérimentation constante et passionnée sur la matière céramique, cette technologie permet en effet d'annuler complètement les effets de réflexion des surfaces. Les superpositions de matières très sélectionnées, avec de très faibles niveaux de gloss, s'amalgament dans le support céramique rendant parfaitement réelle l'interprétation de matériaux naturels avec leurs multiples effets de stonalisation.

Die Technologie Real Matt verleiht dem Feinsteinzeug ein extrem mattes Finish und ist wesentlich opaker als das naturelle Finish, was eine maximale taktile Geschmeidigkeit und eine einfache Reinigung garantiert. Diese Technologie ist das Ergebnis von Talent, Forschung und einem ständigen und leidenschaftlichen Experimentieren mit keramischen Materialien und ermöglicht es, die Reflexionseffekte der Oberflächen vollständig aufzuheben. Überlagerungen ausgewählter Materialien mit sehr niedrigem Glanzgrad fügen sich in den Keramikträger ein und machen die Interpretation natürlicher Materialien mit ihren vielfältigen Schattierungseffekten vollkommen real.
