

# Tuxedo

**Material** The Tuxedo collection is made of a high-gloss polished metal frame and tops of Acacia wood.

**Possibilities** This collection consists of a wall table, corner table, coffee table, a dining table in 2 sizes (200 and 230cm) and a bar table.

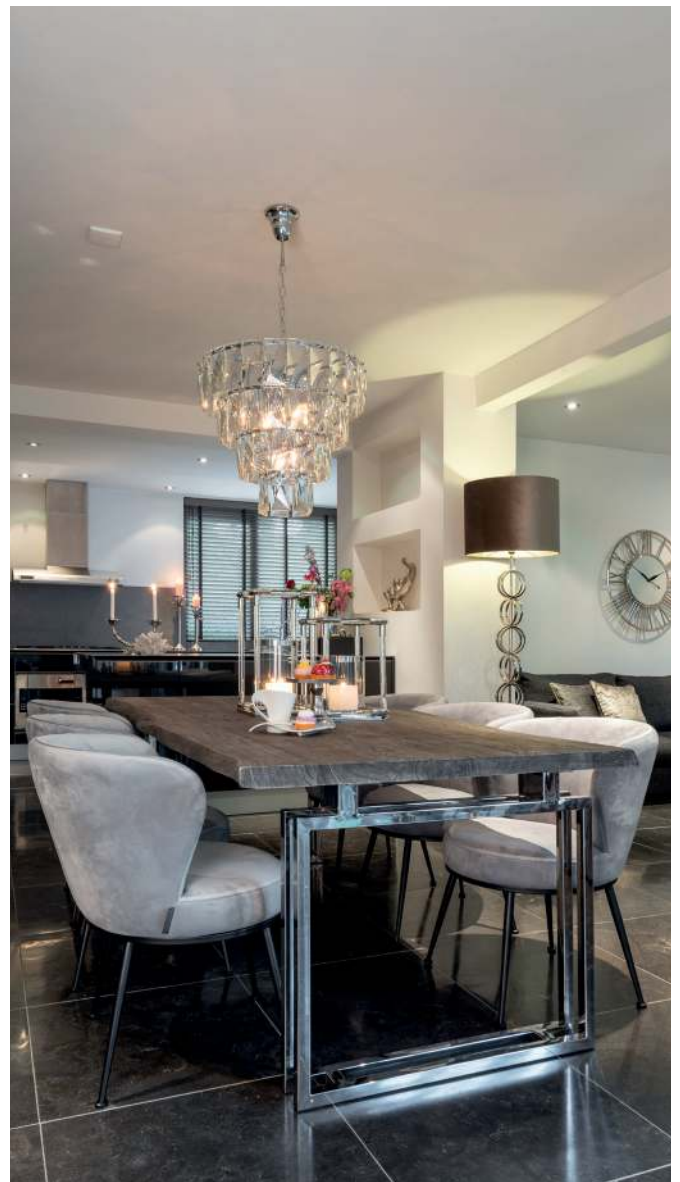

**Maintenance** To keep the Tuxedo furniture as beautiful as possible, it is important, as with everything you are careful with, to maintain the furniture properly.

Immediately remove stains on the tops; DO NOT rub spilled liquids, but dab it with kitchen paper or an absorbent cloth. DO NOT use silicone-containing furniture care products or a solvent such as stain remover, turpentine, white-spirit, thinner or similar detergents.

Stains can be removed with some water and possibly some natural soap. Beware of cleaning agents with bleach (e.g. lemon) or abrasives are strongly discouraged. For the polished frame it is sufficient to wipe it with a slightly damp cloth.

This way you will keep your furniture looking beautiful and it will last for a long time.

**Delivery time** The delivery time of the Tuxedo collection is 4 weeks.
