

COD. 8020
WC GEL

DESCRIPTION

WC Gel

MAIN FEATURES

Removes limescale and resistant incrustations from WC and urinals, leaving pleasant scent.

TECHNICAL SPECIFICATIONS

Specific weight [g/ml]: Green opaque liquid

pH: 2,20 +/- 0,50

Specific weight [g/ml]: 1,030 +/- 0,020

HOW TO USE AND DOSING

Ready to use. Apply the product inside the WC and under the rim. Leave on for 15 minutes, scrub with brush and then flush with water to rinse. Proper dosage saves costs and minimizes environmental impacts.

PRODUCT COMPATIBILITY

Do not mix with chlorinated products. Do not use on acid-sensitive surfaces, e.g. marble, marble-chip materials, travertine and other calcareous surfaces. Before use, check the resistance of the surface to acids. Immediately remove splashes of solution from acid-sensitive surfaces and rinse thoroughly. If in doubt, test compatibility with the materials on a small hidden part before use.

USE & STORAGE PRECAUTIONS

The product is formulated for professional use only. Store in the original containers. Avoid extreme temperatures. For more information on use and disposal, consult the safety data sheet.

COMPLIANCE

The surfactants contained are biodegradable according to the criteria defined by European Directive 648/2004/EC and subsequent amendments. EU Ecolabel License no. IT/020/036. The recommended dose allows you to save money and minimise the environmental impact. Limited use of hazardous substances.

CHEMICAL COMPOSITION

See the safety data sheet for more information on the product's ingredients.
