Excellent ingredients for a wellness experience

The Beauty Escape courtesy line has been designed to give you a wellness experience. The range of body wash and hand soaps is distinguished by formulations rich in active ingredients that work in synergy to offer the skin intense hydration, a soft texture and a radiant appearance.

Hyaluronic acid

It is a high-weight molecule present in the connective tissue of the skin. Thanks to its ability to retain water, it acts on the maintenance of the skin's water balance, and has strong moisturising, repairing and regenerating properties of the tissues.

Glycerin

A small molecule of plant origin able to retain the moisture of the skin, guaranteeing deep hydration, which lasts over time, and an immediately radiant appearance.

Panthenol

Known as Vitamin B5, it has several important properties for the skin: it has moisturising, soothing and protective properties against skin irritation.

Vitamin E

It is an active ingredient known to protect against oxidative damage, improve hydration, skin elasticity and accelerate cell renewal processes.
