Solutions for professional cleaning

Sanitec represents Italtchimica's flagship brand in the fields of professional detergents and cosmetics

The reliability of the products, the continuous improvement of the formulas and the focus on sustainability make it possible to find the most suitable solutions for each customer.

Every area of work is carefully and constantly studied.

Areas of application

The Sanitec range consists of specific lines of products designed for a variety of professional uses. Sanitec meets all the needs of cleaning companies, Ho.Re.Ca., the hotel sector, industry, professional laundries, nursing homes and hospitals.

Its versatility also extends to the cleaning of swimming pools, to the treatment of monuments of historical and artistic value, to specific skin care ranges.

Laundry

- Highly concentrated formulas: up to 3 times more than standard products
- Ecolabel certified system

Kitchen

- Effective, surface-friendly detergents
- Full suitability for H.A.C.C.P. control plans

Skin care

- Products specifically developed for healthcare applications
- Gentle formulas for effective cleansing and care of all skin types

Multisurface

- Detergents for difficult surfaces, suitable for all application areas
- Highly concentrated products without the need for PPE at the dosage of use

Stone and metal surfaces

- Removal of sulfation stains and blackened crusts caused by pollution
- Preserves the characteristics of the stone, environmentally friendly and safe for the user

Italchimica

Sanitec is a brand of Italchimica, a company founded in Padua in 2003 by Alessandro Fioretto together with his brothers Fabrizio and Marco, and his father Nunzio.

It is a company deeply rooted in the dynamic entrepreneurial fabric of north-eastern Italy, a region known for its technical and scientific expertise as well as its industrial and logistical development.

From a small company focused on the professional detergents market, Italchimica has become, in just twenty years, **a benchmark in its sector**, both nationally and internationally.

Our Vision

Italchimica creates innovative and sustainable cleaning and cosmetics products for people's quality of life and the care of the planet.

Our Mission

Italchimica is a benchmark industrial player in Italy in creating, producing and marketing detergent and cosmetic formulas that contribute to improve people's quality of life, while respecting natural resources, quickly and proactively serving both the professional and consumer markets.

Italchimica's reliable service and organisation in constant dialogue with the customer provides quick answers and anticipates its customers' needs.

Our values

Rapidity

We work with innovative drive, rigour and professionalism to provide quick answers to our customers, partners and the community

Transparency

We transparently communicate our procedures, our formulas and claims, our development goals

Creation

We are curious and open to change, we can create great things. We are characterised by professionalism, technicality and innovative spirit, to progress and innovate, always and with great adaptability

Green Change Matters is Italcimica's programme that encompasses and communicates all policies and initiatives related to ESG - Environment, Social and Governance factors.

In this context, sustainability reports are produced, drawn up in accordance with the GRI - Global Reporting Initiative - model, following a materiality analysis that highlights strategic areas for action to contribute to the goals of the United Nations 2030 Agenda.

Using the QR code, it is possible to access the latest sustainability report and the leaflet indicating the highlights, as well as the archive of previous reports.

Water resources

We favour concentrated formulas, optimise water management to limit packaging and transport impacts

Raw materials

We select easily biodegradable materials to help protect the environment

Packaging

We favour the selection of recycled, recovered and process-recyclable components

Waste

We are committed to identifying opportunities to generate value at the end-of-life of materials through their recovery and recycling

Emissions

We invest in clean energy with a CO₂ reduction and offsetting plan

Energy resources

We self-generate energy from renewable sources through investment in new technologies

Research & Development

Italchimica pursues innovation in chemistry that translates into a real benefit for those who use its products. This is why research directions and development projects are established by listening to customers.

Research with the environment and natural resources at the centre, which translates into the choice of renewable, locally available raw materials and biodegradable ingredients.

A team of highly qualified resources in various scientific and technical disciplines carry out the following activities:

- New business development
- Current business
- Quality control
- Regulatory

Certifications

Italchimica's products for home and personal care, as well as for the hygiene and disinfection of professional and domestic spaces, from the nursing homes and hospitals, to industry and Ho.Re.Ca., are certified and comply with safety standards.

Italchimica's priority is to ensure regulatory compliance and maintain high quality standards over time, through strict controls and continuous verification of claims.

Product certifications

Italian certification for disinfectant products

System certifications

Sanitec,

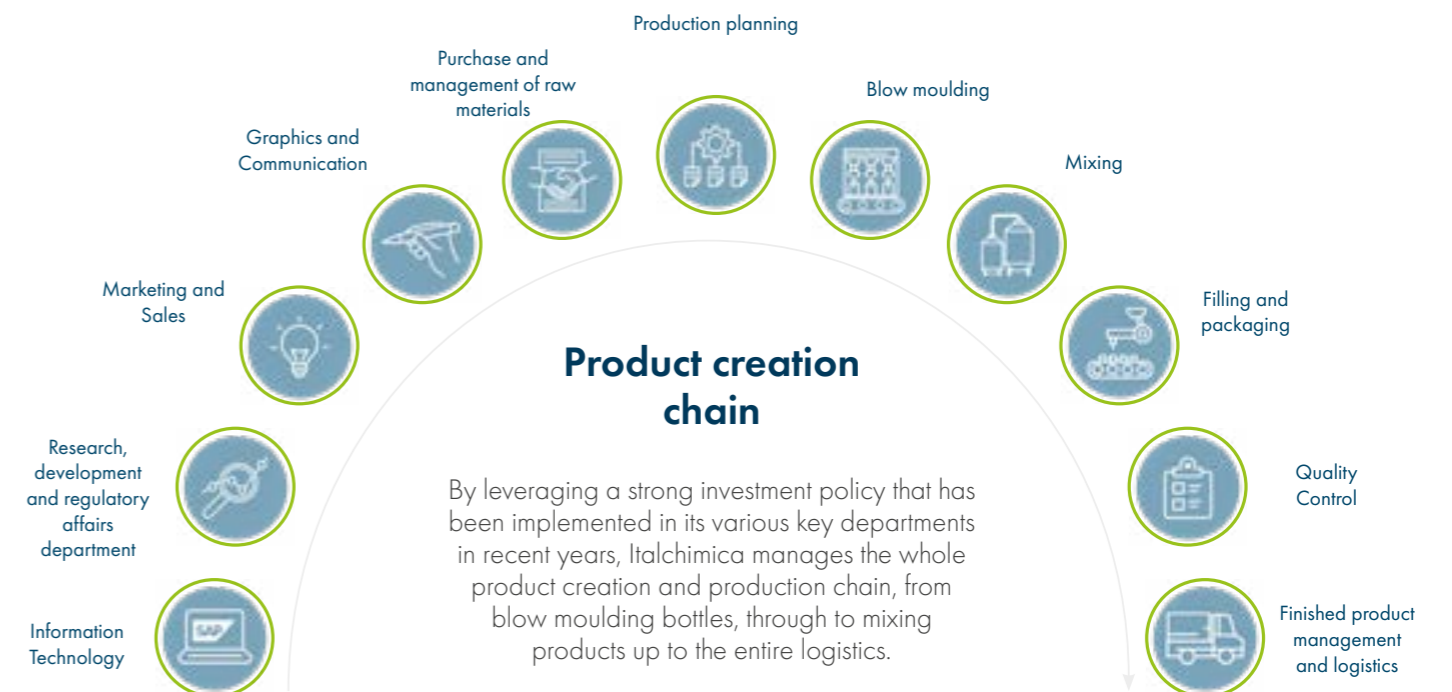

its production technologies and logistics

Production of all Sanitec's extensive range takes place at the industrial site in Padua, Italy, where investment in advanced technologies is constant in order to streamline automation- and knowledge-intensive systems.

This translates into uniform quality standards, safety for operators in the more than 25,000 sqm of production space, certainty in terms of timing and volume, and optimised logistics covering more than 20,000 sqm.

The numbers for Operations

Kitchen

Kitchen

Cleanliness and hygiene in professional kitchens are essential to ensure food and drink safety for customers. Washing, storage and cooking areas must be cleaned with quality products and in accordance with specific hygiene procedures that ensure safe food handling.

From warewashing to surface cleaning and disinfection, Sanitec offers high-performance solutions to facilitate daily cleaning tasks in professional kitchens. Specific formulations have been developed to remove all types of dirt and preserve the different surfaces in the kitchen.

THE STEPS IN THE MECHANICAL WAREWASHING PROCESS

PHASE 1

SOAKING

The function of soaking is to **remove stubborn dirt** before the dishes enter the dishwasher

PHASE 2

WASHING

The main washing step **attacks, dissolves and suspends** the residues from the dishes

It is important at this stage to have the correct level of alkalinity to allow the product to act more effectively, saponifying oils and fats to make them water-soluble

PHASE 3

RINSING

Rinsing aims to **remove residues of cleaning solution and suspended dirt particles**

The addition of rinse aid helps dish drying by reducing the surface tension of the water and prevents limescale build-up on dishes and dishwasher

STOVIL GREEN POWER

Ecolabel-certified concentrated alkaline liquid detergent for mechanical warewashing, for all water hardnesses

Code **4017**
 EAN 8054633834619
 Pack 2 pcs x 5 L / 6.3 kg

1-3.5 ml/L View the data sheet on your smartphone.

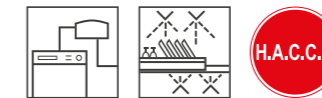

Code **4018**
 EAN 8054633834626
 Pack 1 pc x 15 L / 18.9 kg

1-3.5 ml/L View the data sheet on your smartphone.

STOVIL ULTRA

Concentrated alkaline liquid detergent for mechanical warewashing, for hard water above 25°f

Code **1140**
 EAN 8032680392122
 Pack 2 pcs x 5 L / 6.4 kg

1-2 ml/L View the data sheet on your smartphone.

Code **1144**
 EAN 8054633830161
 Pack 1 pc x 15 L / 19.2 kg

1-2 ml/L View the data sheet on your smartphone.

STOVIL POWER

Concentrated alkaline liquid detergent for mechanical warewashing, for medium water between 15°f and 25°f

Code **1120**
 EAN 8032680391613
 Pack 2 pcs x 5 L / 6.2 kg

1-3 ml/L View the data sheet on your smartphone.

Code **1123**
 EAN 8054633830154
 Pack 1 pc x 15 L / 18.5 kg

1-3 ml/L View the data sheet on your smartphone.

STOVIL ACTIVE

Alkaline liquid detergent for mechanical warewashing, for soft water below 15°f

Code **1100**
 EAN 8032680390340
 Pack 2 pcs x 5 L / 5.7 kg

3-5 ml/L View the data sheet on your smartphone.

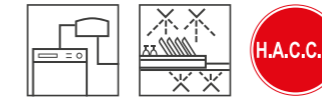

Code **1103**

BRILL ULTRA

Concentrated acid rinse aid for mechanical warewashing, for hard water above 25°f

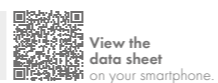

Code **1150**
EAN 8032680393105
Pack 2 pcs x 5 L / 5.1 kg

0.2-0.5 ml/L

Code **1153**
EAN 8054633830093
Pack 1 pc x 15 L / 15.3 kg

0.2-0.5 ml/L

The modular Trilogy system

The Trilogy range consists of concentrated formulas of detergent, sequestrant agent and rinse aid, the concentration of which is dosed by the control unit according to water hardness and level of dirt. The DBrain control unit allows independent dosing of the three products, controlling their concentration in real time, and monitoring their consumption and costs.

Less product consumption compared to conventional products due to **up to 4 times higher concentration**

Control of running cost

Advantages of the Trilogy system:

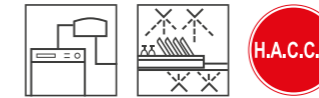

- Effective in any wash water condition
- No phosphorous derivatives, EDTA and NTA
- Reliable dosages
- Monitoring and statistical processing of descaling washings

TRILOGY WASH T1

Concentrated alkaline detergent for mechanical warewashing

Product to be used in combination with *Trilogy Boost T2* and *Trilogy Rinse T3*

Code **4012**
 EAN 8032680399985
 Pack 2 pcs x 5 L / 7.5 kg

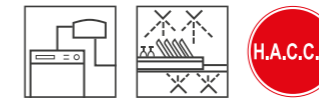

0.8-1.2 ml/L View the data sheet on your smartphone.

TRILOGY BOOST T2

Concentrated sequestrant detergent for mechanical warewashing

Product to be used in combination with *Trilogy Wash T1* and *Trilogy Rinse T3*

Code **4013**
 EAN 8032680399992
 Pack 2 pcs x 5 L / 7 kg

0.8-1.2 ml/L View the data sheet on your smartphone.

TRILOGY RINSE T3

Concentrated acid rinse aid for mechanical warewashing

Product to be used in combination with *Trilogy Wash T1* and *Trilogy Boost T2*

Code **4014**

Dosy Cabinet

Dosy Cabinet is a practical wall-mounted dispensing system for concentrated detergents that makes it easy and safe to dilute a product to the correct concentration for use.

The system is versatile and allows the concentrated product to be dosed directly into the bottle or bucket, avoiding overdosing of products and facilitating use in different applications.

Key opening system

The transparent plastic area allows you to monitor the level of the product placed in the space

1 PUSH = 1 DOSE

One pack of Dosy concentrates is equivalent to 300 bottles of diluted product

$$6 \text{ pcs } \times \text{ (1000 ML bottle) } = 300 \text{ pcs } \times \text{ (500 ML spray) }$$

Advantages of the Dosy system:

- Optimisation of detergent storage space
- Reduction of transport and disposal costs
- Maximum safety of use during the dilution phase

HC4 SURFACE

Fresh floral

Ultra-concentrated floor cleaner

Code **1706**

Laundry

Laundry

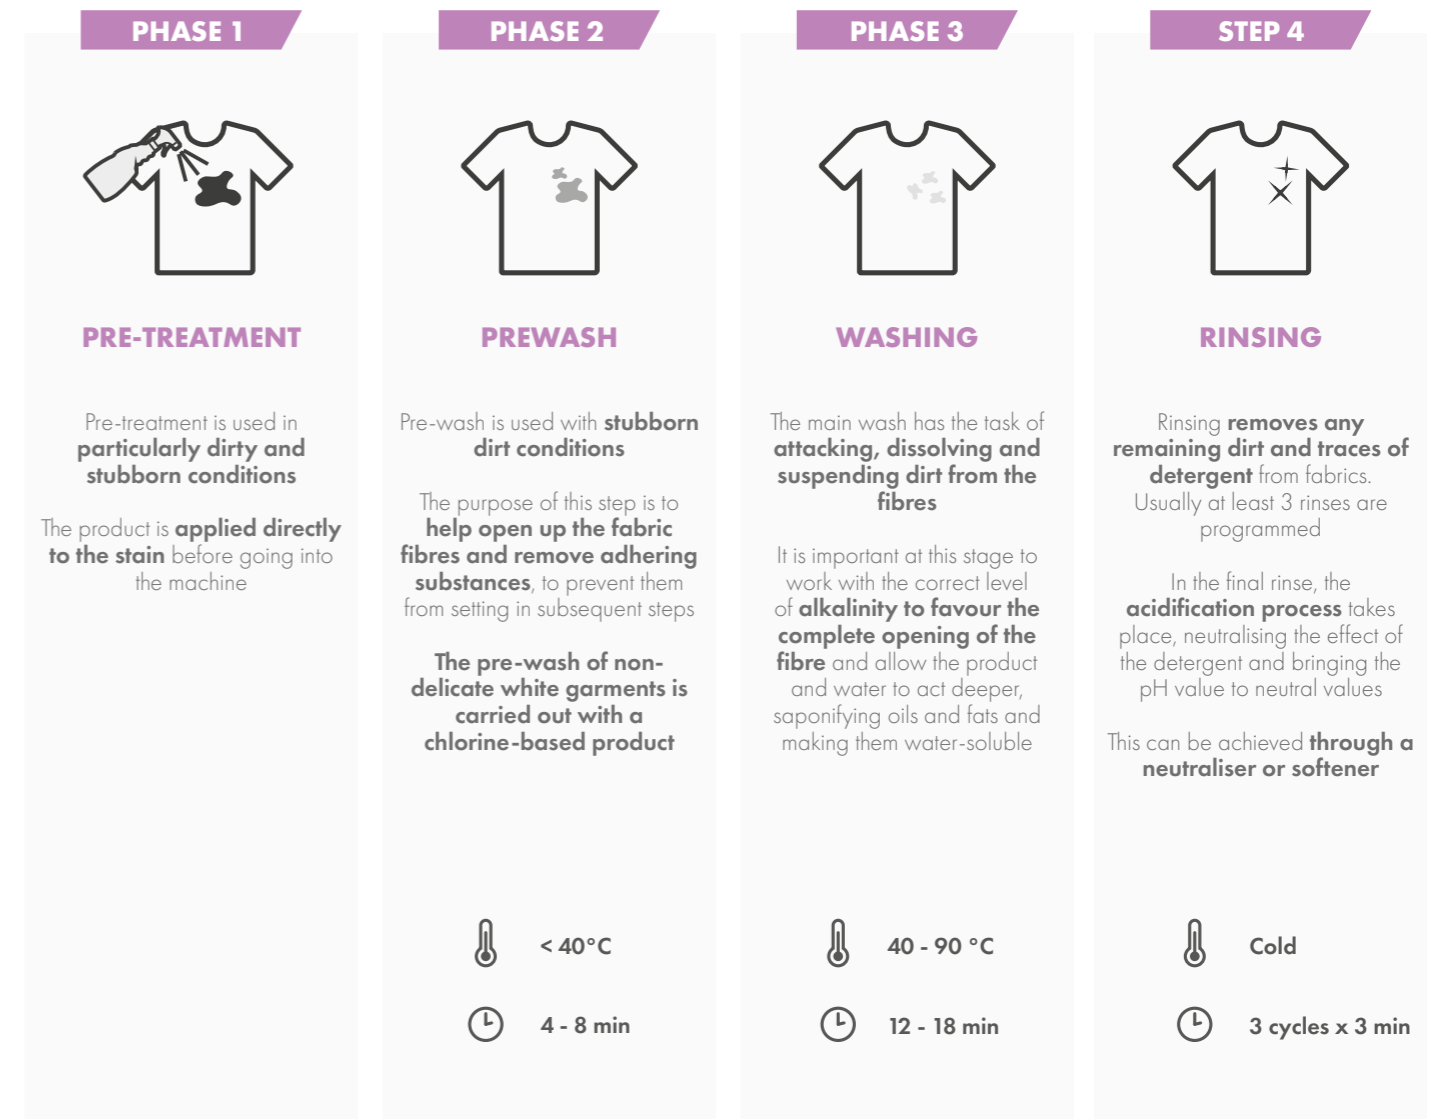

Cleaning fabrics in a professional environment is a key aspect to ensure the safety and comfort of customers. An efficient wash is one that not only effectively removes dirt, but also preserves the softness and integrity of fabrics over time. Type and colour of fabrics, water hardness conditions and the presence of heavy metals are some of the parameters that must be considered when selecting the optimal products and washing process.

Sanitec offers a wide range of detergents and pre-treatments for professional textile washing, with formulas carefully designed for various washing conditions.

Based on preventive and detailed analyses of the needs of each professional laundry, Sanitec technicians recommend the optimal combination of detergents, additives and softeners to ensure the best performance with efficient cost management.

PROCAPS TECHNOLOGY

Sanitec softeners, thanks to Procaps slow-release encapsulated fragrance technology, guarantee a long-lasting, persistent fragrance in wet and dry garments.

Quantum concentrated system

Sanitec Quantum is the concentrated liquid product line developed for the automatic washing of textiles in the professional sector. The comprehensive range of detergents, softeners and additives combines excellent performance with reduced environmental impact.

Within the Quantum line, an **Ecolabel system [EU ECOLABEL IT/039/009 Laundry Detergents for Industrial and Professional Use]** has been certified to meet the highest verified environmental requirements.

Thanks to the synergy between surfactants and enzymatic components, the system is designed to guarantee excellent results even at low temperatures so as to reduce costs and time associated with washing, preserve textiles for longer and contribute to the reduction of CO₂ emissions.

Quantum Surf and Quantum Booster have also been developed with **Proactive System technology** that protects fabrics by facilitating the removal of dirt molecules and preventing them from redepositing within the fibres.

Advantages of the Quantum system:

- Ecolabel certified system: Quantum Basic, Quantum Surf, Quantum Oxygen and Quantum Soft Eco
- Products without EDTA and NTA
- Reduced transport and disposal costs
- Reduced storage space
- Less frequent handling of tanks by the operator

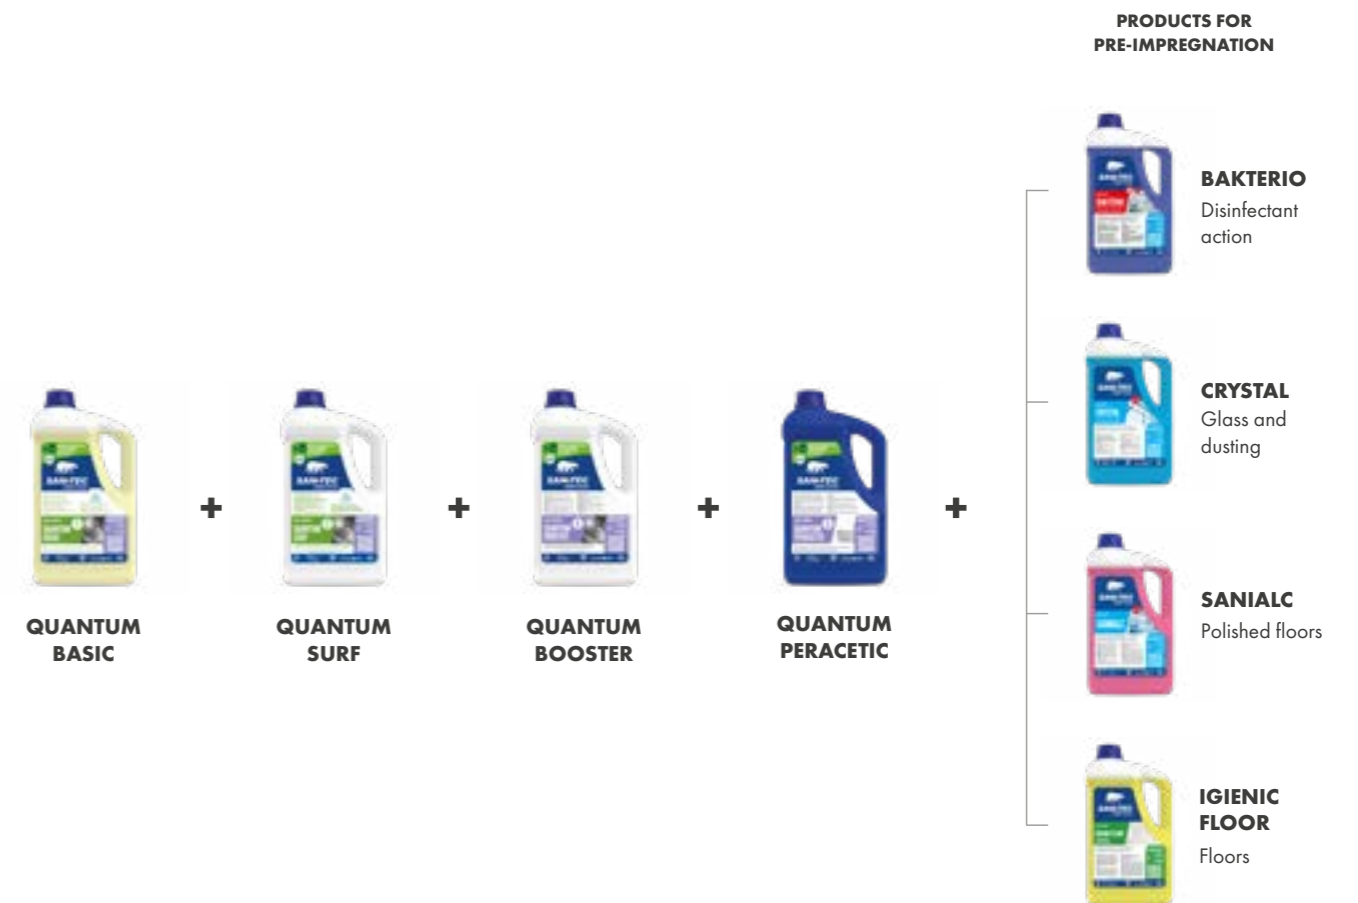

SOLUTIONS FOR COIN-OPERATED SELF-SERVICE LAUNDRIES

Skin care

Professional cosmetic solutions

Skin Laboratories is Sanitec's line of products dedicated to the care of the most sensitive skin, ideal for nursing homes, medical clinics and any other public and private healthcare facility.

The range offers specific formulas developed to meet different needs according to patient requirements.

Active ingredients according to patient needs

ZINC OXIDE

For a soothing action

It contributes to the regeneration of the epidermis by counteracting redness and erythema. It provides relief in the case of nappy rash in children, but also in the case of skin problems in adults or pressure sores in the elderly.

GLYCERIN

For a moisturising, emollient, hygroscopic, refreshing action

Thanks to its humectant and hygroscopic properties, it is able to absorb the humidity present in the air, increasing the skin's hydration state. IT IS a fundamental ingredient for all products that combat skin dehydration and that aim to provide an immediate sensation of relief.

PANTENOL

For a moisturising, emollient and soothing action

It is a vitamin B precursor (Provitamin B), it improves skin barrier function by increasing its elasticity and keeping it soft by facilitating cell turnover. It has soothing, anti-inflammatory and regenerating properties.

MACADAMIA OIL

For an emollient and elasticising action

It restores moisture and softness to dry and irritated skin. It has strong antioxidant and elasticising properties.

LIQUID SOAP GREEN POWER

TOTAL BODY

Green tea

Gentle low-foaming cleanser with glycerine, for body and hair

Code **3210**
EAN 8050999570284
Pack 6 pcs x 500 ml

Ready to use

View the data sheet on your smartphone.

Code **6030**
EAN 8050999570062
Pack 6 pcs x 1000 ml

Ready to use

View the data sheet on your smartphone.

SOFT SHAMPOO

Green tea

Gentle shampoo with Panthenol and Keratin, for frequent use

Code **6013**
EAN 8050999570499
Pack 6 pcs x 600 ml

Ready to use

View the data sheet on your smartphone.

TOTAL BODY SOFT MOUSSE

Green tea

Soft, pH-neutral cleansing mousse with Hyaluronic Acid, Glycerine and Vitamin E, for the whole body, hair and intimate hygiene

Code **3211**
EAN 8050999570659
Pack 6 pcs x 600 ml

Ready to use

View the data sheet on your smartphone.

CLEANSING OIL

Green tea

Cleansing bath oil with skin-friendly, preservative-free formula

Code **6031**
EAN 8050999570116
Pack 12 pcs x 250 ml

Ready to use

View the data sheet on your smartphone.

SOFT SHOWER GEL

Green tea

Low-foaming body cleanser with Provitamin B5

Code **6012**
EAN 8050999570482
Pack 6 pcs x 600 ml

Ready to use

View the data sheet on your smartphone.

INTIMATE WASH

Green tea

Mild intimate cleanser with glycerine and lactic acid

Code **6014**
EAN 8050999570512
Pack 12 pcs x 250 ml

Ready to use

View the data sheet on your smartphone.

WASH CREAM

Green tea

Moisturising cleansing cream with panthenol and glycerine, for cleansing the whole body

Code **6010**
EAN 8054633839805
Pack 6 pcs x 600 ml

Ready to use

View the data sheet on your smartphone.

BARRIER CREAM

Green tea

Barrier body cream with soothing zinc oxide

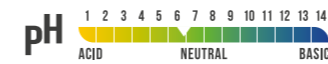

Code **6020**
EAN 8054633839959
Pack 12 pcs x 150 ml

Ready to use

View the data sheet on your smartphone.

SOFT EMULSION

Green tea

Moisturising and nourishing body cream with Karité butter, Macadamia oil and vegetable ceramides. Hypoallergenic

Code **6011**
EAN 8050999570055
Pack 6 pcs x 600 ml

Ready to use

View the data sheet on your smartphone.

PRECIOUS OIL

Green tea

Emollient and elasticising body oil, also ideal for thin and delicate skin

Code **6033**
EAN 8050999570161
Pack 12 pcs x 300 ml

Ready to use

View the data sheet on your smartphone.

SOAP AND GEL DISPENSER

Stone and metal surfaces

Stone and metal surfaces

Petranova

Sanitec Petranova is the professional cleaning line dedicated to the conservation cleaning and protection of building and cladding materials, natural and artificial stone and metal surfaces.

- **Conservative cleaning** of facades of public and private buildings
- **Cleaning of artefacts** of historical, artistic and monumental interest
- **Cleaning of natural and artificial stone surfaces**, fair-faced, high and low porosity stone surfaces such as travertine, tuff, sandstone, granite, porphyry, basalt, marble, Lecce stone, Noto stone, Serena stone, Sperone stone, Peperino stone, Trani stone, Luserna stone, terracotta, clinker, stoneware, cement and concrete mixes
- **Civil and industrial floor cleaning**
- **Graffiti and paint removal**
- **Elimination of saltpetre efflorescence**
- **End-of-site cleaning**
- **Metal** and light alloy cleaning
- **Protection of stone and metal surfaces**, preventing the absorption of water and pollutants

BEFORE APPLICATION **AFTER** APPLICATION

PETRA 24[®]

patented formula

The product removes the most stubborn dirt, even centuries old, without attacking the treated surface, restoring it to its original splendour.

Petra24[®] is an industrially patented product **designed for effective and targeted conservation cleaning** on all high and low porosity stone surfaces. Specifically for the treatment of civil buildings, it is particularly suitable for cleaning artefacts of historical, artistic and monumental interest.

- **Removes the most difficult dirt** respecting all surfaces, even the most delicate ones
- **Removes patinas, black crusts, sulfation stains, moulds, algae and lichens**
- **It is effective against the blackening** of facades by smog and hydrocarbons
- **Ready to use** and easy to apply
- **Leaves no streaks** or surface films. **It is solvent-free**
- **It has no abrasive or oxidising/whitening properties**
- **Does not alter the chemical-physical characteristics** of treated surfaces
- **Safe** for humans and environment
- Gel formula **to adhere to vertical surfaces**

PETRA 24[®]

Patented product

Gel cleaner for the conservative cleaning of all natural and artificial exposed stone surfaces, of high and low porosity

Benefits: restores the stone to its original splendour, removing the most difficult dirt, even centuries old, while respecting the nature of the treated substrate. It removes patinas, sulfation stains (black crusts) and surface deposits of all kinds. It is effective against smog and hydrocarbon dirt

Code **7001**
EAN 8050999570376
Pack 1 pc x 15 L / 17.4 kg

Ready to use

View the data sheet on your smartphone.

GRAFFITI RM

Specific cleaning solvent for removing graffiti, inks and paints

Benefits: effectively removes all graffiti from natural and artificial stone and metal surfaces of all kinds

Code **7004**
EAN 8050999570420
Pack 2 pcs x 5 L / 5.5 kg

Ready to use

View the data sheet on your smartphone.

POWER XP

Highly effective alkaline detergent for deep cleaning of natural and artificial stone surfaces

Benefits: restores the artefact to its original state by removing organic and industrial dirt. Particularly effective for removing greasy dirt, patinas, crusts, sulfation stains and surface deposits of all kinds

Code **7002**
EAN 8050999570383
Pack 2 pcs x 5 L / 6.3 kg

Ready to use

View the data sheet on your smartphone.

ACID SP

Descaling detergent made with hydrochloric acid for heavy soiling

Benefits: effectively removes inorganic incrustations such as lime deposits, efflorescence from saltpetre, cement, plaster, rust

Code **7007**
EAN 8050999570505
Pack 2 pcs x 5 L / 5.5 kg

Ready to use

View the data sheet on your smartphone.

METAL BRO

Specific cleaner and deoxidiser for hard metal and light alloy surfaces

Benefits: restores treated metal surfaces to their original splendour with long-lasting results and restores the original colour to surfaces such as copper (eliminates verdigris), brass and bronze. Cleans, deoxidises, removes rust, lime scale and oxidation from all metal surfaces

Code **7003**
EAN 8050999570413
Pack 2 pcs x 5 L / 5.2 kg

Ready to use

View the data sheet on your smartphone.

AQUA

Water-based protective additive for hydrophobisation of all building materials

Code **7005**
EAN 8050999570437
Pack 2 pcs x 5 L / 5.1 kg

10-30 ml/L

View the data sheet on your smartphone.

Benefits: reduces water absorption and the proliferation of mould or algae typical of stone products

AQUA PLUS

Water-based protective additive for the hydrophobisation of all building materials, ideal for low-porosity surfaces

Code **7008**
EAN 8050999570857
Pack 2 pcs x 5 L / 5 kg

Ready to use

View the data sheet on your smartphone.

Benefits: provides effective protection against driving rain and pollutants. Reduces water absorption

HYDRO S

Solvent-based protective additive. Non-film-forming product designed for hydrophobisation of all building materials

Code **7006**
EAN 8050999570444
Pack 2 pcs x 5 L / 4 kg

Ready to use

View the data sheet on your smartphone.

Benefits: slows down the degradation action of pollutants on surfaces and provides long-lasting protection. Reduces water absorption
