**Public cible et descriptif du Pé**

LLIS has grown so much over the last few years with the addition of an International Kindergarten, Primary and Secondary school. We are unique. We offer a number of different education systems and qualifications, in different languages, in a culturally diverse country in the heart of Europe. Routes / Roots to the Future is a harmonisation project with the aim of bringing together our whole school, and wider community under the banner of creating a school wide 'Mission, Vision and Values'.

**Objectifs/résultats escomptés**

Our objective is to work collaboratively to create mission, vision and values statements that define: Who we are, where we are going, and what we stand for. We feel that our project can harmonise the different sectors within our school, which will enable us to move forward together to facilitate the development of 21st Century Skills for all of our students.

**Activités/mesures mises en place**

In our prephase, in collaboration with all stakeholders, we created 3 pillars as a foundation to build our school mission vision and values. These are Care, Create and Connect. We will launch our mission, "We care, create and connect on our lifelong learning journey" with a school festival in late September 2022, and will use our pedagogical day in October 2022 to give staff the opportunity to reflect on the terms, and consider the practical ways that the mission statement will become an integral part of daily school life, influencing our thinking, actions and decision-making across the whole school.
