ADVANCE®

ANTIBACTERIAL & BIO-AIR PURIFYING

ADVANCE® è una tecnologia innovativa, una ceramica igienica e amica dell'ambiente. È una nuova generazione di gres porcellanato, frutto di una lunga ricerca, sviluppata in collaborazione con il Prof. Isidoro Lesci nei nostri laboratori e con il supporto di ingenti investimenti.

ADVANCE® contribuisce ad eliminare virus, batteri, microrganismi nocivi ed a contrastare l'inquinamento ambientale dannoso per salute ed ambiente.

Le proprietà antivirali e antibatteriche intrinseche nel materiale ceramico, contribuiscono in modo decisivo ad eliminare ogni forma di virus e batterio, ed altri microrganismi dannosi non solo per l'ambiente ma anche per la nostra salute.

Un'innovazione che permetterà di rendere abitazioni private e luoghi pubblici più sicuri e sani, con un'igiene garantita 24 ore su 24 riducendo drasticamente l'utilizzo di agenti chimici o detergenti.

ADVANCE® is an innovative technology, a hygienic and environment-friendly porcelain tile.
A new generation of porcelain stoneware, the result of a long-standing research project developed in our laboratories in collaboration with Professor Isidoro Lesci and supported by considerable investments.

ADVANCE® contributes towards eliminating viruses, bacteria and toxic micro-organisms and combats the environmental pollution dangerous to health and the environment.

The intrinsic antiviral and antibacterial properties of the porcelain tile material decisively contribute to eliminating every form of virus and bacteria, as well as other micro-organisms not only toxic for the environment but also for our health.

An innovation that will make homes and public places safer and healthier, with hygiene guaranteed 24/7, drastically reducing the use of chemical agents or detergents.

PROPRIETA'

1 ELIMINA I VIRUS - ELIMINATES VIRUSES

ISO 18061:2014(E) - Coronavirus 229E

TEST TCNA (TILE COUNCIL OF NORTH AMERICA)

TEMPO DI ESPOSIZIONE Exposure time	**15 MIN**	**30 MIN**	**6H**	**8H**

	A massimo To maximum	**100%**	A massimo To maximum	97,2%

3 RIDUCE INQUINAMENTO ATMOSFERICO
REDUCTION OF ATMOSPHERIC POLLUTION

UNI 11484

ATTESTATO DAL DIPARTIMENTO DI CHIMICA UNIVERSITÀ DEGLI STUDI DI TORINO
as attested by the University of Turin department of chemistry

-20,7% di NO_x

Converte le sostanze inquinanti volatili in sostanze innocue. ADVANCE® riesce a dimin molecole di NO_x (Ossidi di Azoto) del 20,7%

Converts volatile pollutants into harmless substances. ADVANCE® reduces NOx (nitrogen oxide) molecules by 20.7%

4 COMBATTE LO SPORCO - COMBATS DIRT

Riduce la necessità di detergenti chimici.
Lo sporco si disgrega sulle superfici ceramiche ADVANCE® e ciò permette di mantenere puliti i pavimenti e i rivestimenti tramite il solo utilizzo di acqua e sapone neutro. Per i pavimenti esterni lo scorrere dell'acqua piovana è sufficiente per garantirne la pulizia.

Reduces the need to use chemical detergents.
Dirt disintegrates on the surface of ADVANCE® tiles, floors and walls can be kept clean by just washing with a neutral soap and water. For outdoor floors, the flow of rainwater is enough to guarantee cleanliness.

5 ATTENUA I CATTIVI ODORI - MITIGATES BAD ODOURS

Trasforma le molecole organiche riducendo i cattivi odori.
Come per gli NO_x, le molecole fonti di cattivi odori si decompongono non appena entrano in contatto con la superficie, attenuandone così l'effetto odorigeno.

Reduces bad odours by converting the organic molecules.
Furthermore, as for NO_x molecules, the molecules that cause bad odours decompose as soon as they come into contact with the surface, thus mitigating any malodorous effect.

DESTINAZIONI D'USO - SICUREZZA E IGIENE
MODE OF USE - SAFETY AND HYGIENE

Con l'innovativa ceramica ADVANCE® Italcer Group vuole contribuire a migliorare la salubrità e la sicurezza degli ambienti, in ambito pubblico e privato, rivestendo qualsiasi tipo di superficie per abitazioni, strutture sanitarie, scuole, aeroporti e spazi comuni indoor e outdoor. Con le sue proprietà intrinseche ADVANCE® renderà gli ambienti, oltre che belli esteticamente, anche sani ed igienizzati per la salute e il benessere di ognuno di noi.

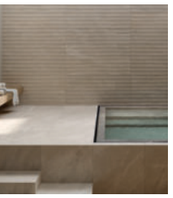

With ADVANCE®, Italcer Group aims to contribute towards improving health and safety in public and private environments, thanks to this innovative porcelain tile, which can be applied to any type of surface in homes, healthcare environments, schools, airports and communal indoor and outdoor spaces. With its intrinsic properties, ADVANCE® not only makes environments aesthetically beautiful but also healthy and sanitised for the health and well-being of everyone.

Angers

Tutta la forza materica della pietra rivive in questa nuova serie in gres porcellanato, che prende ispirazione dall'ardesia naturale rendendola ancora più prestigiosa e accogliente.

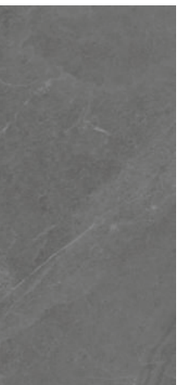

Angers, prodotta con la tecnologia ADVANCE®, dona sicurezza a qualsiasi ambiente senza trascurare il lato estetico.
Realizzata in nuances raffinate e contemporanee dall'intramontabile bellezza.

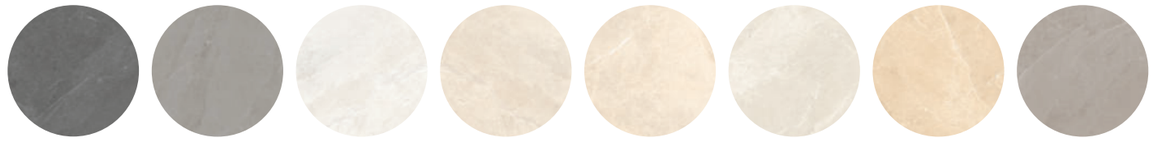

All the material strength of stone is revived in this new porcelain stoneware series, which takes its inspiration from natural slate, making it even more prestigious and welcoming. Angers, produced with ADVANCE® technology, brings safety to any environment without neglecting the aesthetic aspect.

Inspirée de l'ardoise naturelle qui la rend encore plus prestigieuse et chaleureuse, cette nouvelle collection en grès cérame fait revivre toute la force matérielle de la pierre. Angers, basée sur la technologie ADVANCE®, apporte sécurité dans tous les lieux, sans négliger l'esthétique.

Die ganze stoffliche Kraft des Natursteins kommt in dieser neuen Serie aus Feinsteinzeug zum Ausdruck, deren am Naturschiefer inspirierte Optik besonders edel und ansprechend wirkt. Das mit der ADVANCE®-Technologie produzierte Angers sorgt ohne Abstriche an die Ästhetik für Sicherheit in jedem Ambiente.

Angers
Shiny effect

Il gres porcellanato della serie Angers, è la scelta perfetta per creare un look elegante e senza tempo nella tua casa,
aggiungendo profondità e consistenza ad ogni pavimento e rivestimento.
Un effetto pietra naturale, con l'aggiunta di venature quasi scintillanti che la attraversano, la solcano in tutti i suoi formati,
come graffi argentati che riflettono la luce, conferendole un aspetto unico che darà valore a qualsiasi stanza.
Un tocco di raffinatezza, di lucentezza, che emerge in Angers e le dona un effetto accattivante.

The porcelain stoneware of the Angers series is the perfect choice to create an elegant and timeless look in your home, adding depth and texture to every floor and wall covering. A natural stone effect, enhanced by the shimmering veining effect that runs through every size of tile, like silvery scratches that reflect the light, giving it a unique look that will add value to any room. A touch of refinement, of lustre, that emerges in Angers, creating a distinctive eye-catching effect.

Le grès cérame de la collection Angers est le choix parfait pour donner à votre maison une allure élégante et intemporelle, en ajoutant profondeur et consistance à tous les revêtements de sol et mur. Un effet pierre naturelle avec des veines presque scintillantes qui le traversent et le marquent dans tous ses formats, telles des griffes argentées qui réfléchissent la lumière pour donner un aspect unique à même de valoriser toutes les pièces. Une touche de raffinement et d'éclat qui se libère d'Angers et lui confère un grand charme.

Das Feinsteinzeug der Serie Angers ist der perfekte, elegante und zeitlose Look für Ihre Wohnung, mit dem jeder Wand- und Bodenbelag Tiefe und Konsistenz erhält. Natürliche Steinoptik, die in allen Formaten von beinahe funkelnden Adern durchzogen ist wie von silbrigen, das Licht reflektierenden Kratzern. Ein einzigartiger Look, der jeden Raum aufwertet. Eine edle, glanzvolle Note, die Angers besonders attraktiv macht.

Angers
The colours

Pavimenti e rivestimenti contribuiscono in modo significativo a definire il carattere e il valore estetico di un ambiente.

Con le sue nuances, Angers offre una gamma versatile, capace di interpretare diverse esigenze di interior design: le tonalità più chiare sono ideali per creare spazi neutri, luminosi e raffinati mentre le tonalità più scure, invece, conferiscono maggiore carattere e profondità agli spazi, mantenendo al tempo stesso un piacevole equilibrio visivo.

In queste varianti risaltano in modo particolare le venature tipiche dell'effetto pietra, valorizzate da delicati riflessi di luce che arricchiscono la superficie e ne esaltano l'impatto estetico.

Flooring and wall coverings make a significant contribution to defining the character and aesthetic value of a space. With its range of nuances, Angers offers a versatile palette capable of meeting a variety of interior design needs: lighter shades are ideal for creating neutral, bright and refined spaces, while darker tones add greater character and depth, while maintaining a pleasing visual balance. In these variations, the distinctive veining of the stone effect stands out in particular, enhanced by delicate reflections of light that enrich the surface and heighten its aesthetic impact.

Les sols et les revêtements muraux contribuent de manière significative à définir le caractère et la valeur esthétique d'un espace. Avec ses nuances, Angers offre une palette polyvalente, capable de répondre à différentes exigences en matière de décoration intérieure : les teintes les plus claires sont idéales pour créer des espaces neutres, lumineux et raffinés, tandis que les tonalités plus foncées apportent davantage de caractère et de profondeur aux espaces, tout en préservant un agréable équilibre visuel. Dans ces variantes, les veinures typiques de l'effet pierre ressortent tout particulièrement, sublimées par de délicats reflets de lumière qui enrichissent la surface et renforcent son impact esthétique.

Boden- und Wandbeläge tragen maßgeblich dazu bei, den Charakter und die ästhetische Wirkung eines Raumes zu prägen. Mit seinen vielfältigen Farbnuancen bietet Angers eine vielseitige Auswahl, die unterschiedlichen Anforderungen im Interior Design gerecht wird: Die helleren Farbtöne eignen sich ideal für neutrale, lichtdurchflutete und elegante Räume, während die dunkleren Nuancen den Räumen mehr Charakter und Tiefe verleihen und zugleich für eine harmonische optische Balance sorgen. Bei diesen Varianten kommen die für die Steinoptik typischen Maserungen besonders gut zur Geltung. Zarte Lichtreflexe unterstreichen ihre Wirkung, bereichern die Oberfläche und verstärken ihre ästhetische Ausstrahlung.

Angers
The decors

Il mosaico è un'opera d'arte: un disegno artistico che mescola spessori, ed effetti diversi. Angers è una serie che si completa con tre effetti mosaici diversi:

Tapestry che coinvolge sia l'effetto pietra della serie stessa che l'effetto legno della collezione Dream, in piccoli rombi che donano alla parete uno scenario caldo e suggestivo.
Mosaico nel formato 30 x 30: tessere incastrate in uno schema ben preciso che creano un motivo originale donando movimento al rivestimento.
Lesena simbolo di questa collezione, si presenta in un formato inedito 38,5 x 120 cm e mescola tutta la morbidezza di questo effetto pietra esaltandone le venature ad una forma tridimensionale, che dona anche giochi di luce.

The mosaic is a work of art: an artistic design that mixes different thicknesses and effects. Angers is a series that is completed with three different mosaic effects: Tapestry involving both the stone effect of the series itself and the wood effect of the Dream collection, in small diamonds that make the wall a warm, evocative backdrop. Mosaico in 30x30 size: tesserae interlocked in a precise pattern that create an original motif, adding a sense of movement to the wall covering. Lesena, the symbol of this collection, comes in an unprecedented 38.5 x 120 cm size and mixes all the softness of this stone effect enhancing the veins with a three-dimensional shape, which also creates plays of light.

La mosaïque est une œuvre d'art : une création artistique mélangeant épaisseurs et effets. Trois effets de mosaïque complètent la collection Angers : Tapestry reprenant tant l'effet pierre de la collection que l'effet bois de la collection Dream, sous forme de petits losanges qui composent sur le mur une déco chaleureuse et suggestive. Mosaico en format 30x30 : des tesselles enchâssées selon un schéma bien précis pour dessiner une fantaisie originale qui anime le mur. Lesena, symbole de cette collection, dans un format inédit 38,5x120 cm, tout en exaltant les veines, concilie la douceur de cet effet pierre à une forme tridimensionnelle qui joue avec la lumière.

Mosaike sind Kunstwerke, kunstvolle Motive aus verschiedenen Stärken und Looks. Die Serie Angers wird durch drei verschiedene Mosaikeffekte komplettiert: Tapestry umfasst sowohl die Steinoptik der Serie selbst als auch die Holzoptik der Kollektion Dream in kleinen Rauten, und gestaltet die Wand warm und effektvoll. Mosaico im Format 30x30: Nach einem präzisen Schema angeordnete Mosaiksteinchen erzeugen ein originelles Motiv und bringen Bewegung in die Wandverkleidung. Lesena, Symbol der Kollektion im ungewöhnlichen Format 38,5 x 120 cm, verbindet die ganze Weichheit und die ausgeprägte Äderung dieser Steinoptik mit einer dreidimensionalen Form, die zudem effektvoll mit dem Licht spielt.
